Dear Representative,

Michigan's Auto No Fault system is seriously threatened by the proposal changes to no fault insurance. If these bills SB 293 and 294 pass everyone in Michigan would be negatively impacted. There would be a loss of jobs including my own, along with my coworkers that work for the company I work for. Dignitas, Inc. is a rehabilitation company that's involved with helping and caring for victims who have sustained an injury in a car accident. They assist with needs for as long as the client's injuries persist. The state of Michigan is facing an economic crisis. I believe the residents of Michigan shouldn't pay more for insurance rates to protect themselves. I am very excited to know that Michigan is one state that protects its drivers so please don't take that away from the Michigan residents. I must say I was involved in an auto accident 3 years ago and I'm now waiting for a response from the person that hit me and my insurance company. The person can't afford to pay me out of pocket that is why auto no fault is needed. I had no fault insurance at the time of the accident. I lost my car, my job and place. I was also injured and \$50,000 is not enough for a head injured client! That wouldn't cover half of the medical care, hospital bills, doctor's fees and wage loss. Also it wouldn't cover the rehabilitation costs that play a very important role in a person's recovery. It's not right to make the other driver pay out of pocket when they have also purchased auto no fault insurance. Please vote NO to bills HB 4936!!

Sincerely,
